Please take a look at our previous circle's Pixiv (ID=17811)
Our former circle consisted of two different people.

I certainly wanted to draw Sata-chan as a tall person and
Hiyaka as a little one.

Also, I would have been able to attend Summer Comiket if I
drew a bit more.

Actually, I wanted to be on time... (with the deadline).

Finally,

it's trivial how I came up with the names of the two.

They are characters of a pharmaceutical and a chemical
company and each company has its title from its location.

田中 (Tanaka) is a district in Tokyo and 田中 (Tanaka) is an area in the same city

田中 can be read as "Tanaka" and "Tanaka". Both mean "the birdhouse".
The bird in Sata-chan's first name (田) can also be pronounced as "tan"
(Kanaomi reading). In sometimes it can also be read as "tan",
which it means "slightly" (田).

オナ アイ ヒナ コ

アサ サタ サト ミ

Asa Sata Sato (Sato)
